 - Python
 - C/C++
 - Java
- Web Development:
 - HTML/CSS
 - JavaScript
- Web Frameworks:
 - Django
 - Bootstrap
- Data Manipulation:
 - SQL
 - PL/SQL
- Version Control:
 - Git/GitHub

LANGUAGES:

- English
- French
- Arabic

PROJECTS

Inventory Management Application:

1 March 2023 - 1 June 2023

- An academic project that I built with a teammate. The goal of the project was to create a user-friendly and efficient system for managing the stock and orders of a small business.
- We used a Bootstrap, HTML, CSS and JavaScript to design the front-end, and for the back-end of the web application we used Django web framework.

Banc Management Application:

1 February 2023 - 1 March 2023

- A bank management application is a small Java project that allows users to perform various banking operations, such as creating accounts, depositing and withdrawing money, transferring funds, checking balances, and viewing transaction history.

EDUCATION

National School of Computer Science and Systems Analysis:

1 September 2022 - Present

ESIREM Dijon:

1 September 2021 - 15 March 2022

Preparatory Classes IBN BAJA:

1 September 2019 - 30 June 2022

CERTIFICATIONS

Meta Back-End Developer Certificat Professionnel (in progress).

Supervised Machine Learning: Regression and Classification.
